

Amendments to the Claims:

Please amend the claims to read as follows:

1-5. (Cancelled)

6. (Currently amended) A transgenic plant comprising a nucleic acid encoding a cellulase microbial endocellulase or endoglucanase.

7. (Currently amended) The transgenic plant of claim 6, wherein said nucleic acid is stably integrated into a nuclear or plastid genome of the plant and is under control of a promoter active in plants.

8. (Currently amended) The transgenic plant of claim 16 wherein the inducible promoter is a wound-inducible or chemically-inducible promoter.

9. (Currently amended) The transgenic plant according to claim 8 wherein said chemically-inducible promoter is one of a PR-1, PR-1a, PR-2, PR-3, PR-4, and PR-5 promoter.

10-13. (cancelled)

13. (currently amended) The transgenic plant according to claim 6, wherein said cellulase endocellulase or endoglucanase is derived from a microorganism.

14. (Currently amended) The transgenic plant according to claim 30, wherein said bacterium is a *Thermomonospora* bacteria.

15. (Currently amended) The transgenic plant according to claim 14, wherein said bacterium is *T. fusca*.

16. (Currently amended) The transgenic plant of claim 7 wherein the promoter is an inducible promoter.

17. (Currently amended) The transgenic plant of claim 7 wherein the promoter is a constitutive promoter.

18. (Currently amended) The transgenic plant of claim 6, wherein the cellulase is an endocellulase or endoglucanase is a [[()] β -1,4-endoglucanase or β -D-glucosidase].
19. (Currently amended) The transgenic plant of claim 7 wherein said nucleic acid further encodes a targeting sequence.
20. (Currently amended) The transgenic plant of claim 19 wherein said targeting sequence comprises a vacuole-targeting sequence.
21. (Currently amended) The transgenic plant of claim 6 wherein the endocellulase or endoglucanase cellulase is thermostable.
22. (Previously presented) A transgenic seed obtained from the plant of claim 6.
23. (Previously presented) A transgenic seed obtained from the plant of claim 7 wherein said seed comprises said nucleic acid.
- 24-29. (cancelled)
30. (Currently amended) The transgenic plant of claim 13, wherein said microorganism is a bacterium or a fungus.
